

Fábio Gonçalves

Master in Electrical and Computers Engineering

About me

Master in Electrical and Computer Engineering, in the area of Automation with specialization in Industrial Management. I'm 24 years old and I'm looking for challenges that will allow me to gain experience while being useful to your company, allowing me to apply and improve my technical knowledge, thus improving my skills and professional performance. I value organization at work, commitment to the company, teamwork, professionalism and ethics at work and the necessary commitment to meeting the objectives to be achieved.

EDUCATION

2017-2022

Master Degree

Porto, Portugal

Electrical and Computers Engineering - Specialization in Industrial Management

Faculty of Engineering of the University of Porto

In 2022 I completed the Master's Degree in Electrical and Computer Engineering in the field of Automation with specialization in Industrial Management by the Faculty of Engineering of the University of Porto with an average of 14 values.

Throughout my academic career I acquired knowledge related to electrical circuits and computers, as well as programming and analysis of electrical circuits. I also covered information systems, UML modeling language and SQL language. Also acquired some knowledge related to the energy sector, namely basics about the structure of an electrical power system and the ability to dimension electrical installations.

After three years, I integrated the specialization in industrial management in which I obtained knowledge of operations, decision support systems and quality and reliability systems.

At the end of 5 years in which I acquired experience and knowledge in the field of engineering, I presented my thesis entitled "Post-fire forest recovery: economic evaluation of alternative strategies of reforestation" having obtained the classification of 18 values.

WORK EXPERIENCE

2023-Today

Junior Consultant Engineer

Porto, Portugal

Capgemini Engineering

Since March of 2023 I am working at Capgemini Engineering as a Junior Engineering Consultant on a project for Vestas. As part of a Technical Writing team, my duties include providing technical support to team members, management of documents and classification of documents. To achieve the tasks given to me I usually work with Excel formulas, T-DOC and SAP Easy Document Management apps and the Sharepoint site. I work and report my work directly to Documentation and Functional Excellence specialists.
